1

You don't necessarily need an electronic MIS for a Social Protection Program

MYTH OR TRUTH?

2

'A MIS is
a database'

MYTH OR TRUTH?

3

Management Information Systems are a simple way to improve SP program processes

MYTH OR TRUTH?

4

The design of an MIS can be fully outsourced to IT developers

MYTH OR TRUTH?

5

Your MIS
solution should be
context specific

MYTH OR TRUTH?

6

Program MISs always support all of the SP administrative functions, including: Registration and enrollment of beneficiaries, payments/delivery, complaints and appeals, monitoring and evaluation, conditionality compliance, etc.

MYTH OR TRUTH?

7

Program MISs
ensure transparency
and good governance
of Social Protection
Programs

MYTH OR TRUTH?

8

Databases linked to an MIS need to store huge amounts of data in order to be useful

MYTH OR TRUTH?

9

In remote areas where there is limited internet access, an MIS will not work

MYTH OR TRUTH?

10

An MIS can
really support
decision making and
management but it
needs to be carefully
designed to do this

MYTH OR TRUTH?

11

Depending on your country's institutional, technological and operational considerations; international best practice may not be the appropriate solution when designing an MIS

MYTH OR TRUTH?

12

Once your MIS is designed, no further design work is necessary
